APPLY TO BE A FELLOW!

As a part of Data-Pop Alliance's Global Professional Training Program, we are selecting **15 fellows** to attend free of charge our 3-day professional training workshop "Leveraging Big Data for Sustainable Development" delivered in partnership with UNSSC, in **Bangkok on March 27-29, 2018**.

WE ARE LOOKING FOR FELLOWS WHO:

- Are enthusiastic to attend the Professional Training Workshop and eager to build their knowledge and understanding about Big Data for Sustainable Development.
- Are motivated to drive action and dialogue in the context and in support of the data revolution and the Post-2015 Sustainable Development Goals (SDGs) agenda.
- Are willing to participate for at least 6 months as energetic members of the UNSSC/ Data-Pop Alliance Big Data & Sustainable Development Open Learning Hub following the course, contributing to developing and growing this global Community of Practice.

ELIGIBILITY

- Work in the field of Big Data for Development in Thailand and/or Southeast Asia. Preference will be given to members of civil society/NGOs and public sector organizations.
- Have a good statistical and/or quantitative background and a basic understanding of data methods and tools.
- Be proficient in English.
